June 23rd, 1977

Hi everybody !

This month EOJ packed its thousand and one bits and pieces and moved four floors down in the same building. As you can see, it was quite a major operation !!!

However, apart from one plant which I killed, we've got everhthing down in good shape and by now are fairly well organised and settled in. There is still the final touch missing but most of the posters, pictures etc are up on the walls and everybody says it looks great.

Sent over 2000 flyers out announcing the office move and on the reversde side we had some super cartoons of a guy who has just completed an EO trip. As we don't have anybody here with the talents of Mark Ram we had to get outside help for all the drawings and now we hope that this cartoon will convince lots and lots of people to drop out for a few months and become overlanders.

Annette
